Wall Street Panic Through Fear of Combine Stocks.

CONSERVATIVES TO THE RESCUE.

Clearing House Banks Forced Exorbitant Money Rates Down by Putting \$10,000,000 into the Breach—Two Failures, One Trust Company Handling Combine Stocks

NEW YORK, Dec. 19.—Panic conditions developed on the stock exchange with the imperative need of money developed by the violent contraction in values. Stocks were being thrown over without the slightest regard to the prices they would bring and at distressing sacrifice of values. In the last half hour of the market some \$10,000,000 was offered on the stock exchange by the concerted action of the clearing house banks to force the rate arbitrarily down to 6 per cent without regard to distracted bidding at higher rates which was being done by other brokers for distressed operators. The collapse in the money rate checked the decline and drove the bears to cover. The recoveries produced by their urgent bidding were almost as violent as the declines had been, but the losses were by no means entirely retrieved. Large offerings of stocks continued at the rally, and at some points of the list prices broke anew before the close, making the closing exceeding irregular and unsettled.

BOSTON, Dec. 19.—Confidence in financial circles in this city was apparently restored by the united efforts of bankers and brokers only to be again shaken by the failures in New York. The local stock market quickly followed New York in the stock decline, but the slump did not bring with it any failures among local brokers. Copper stocks underwent a further contraction. The offer of the clearing house association to assist any solvent bank in temporary straits probably did much to ease matters here and coupled with it came the report of a satisfactory showing on the part of both the two banks in difficulty—the Globe and the Broadway—and also from the assignee of J. P. Squire and company the failed pork packers.

It is understood, however, that the affairs of all the banks which hold loans in copper stocks and other securities which have shown sharp declines, are being thoroughly investigated and if any is in found in a particularly bad state it will be closed.

In the railroad list such stocks as Northwest, New York Central, Great Northern preferred, Rock Island, Southern Pacific, the Union Pacific, the Northern Pacific, Atchison preferred and, in fact, the most prominent and active railroad stocks in the whole list showed losses all the way from 4 to 9 points.

The rallies with the final offerings down of the money rate to 6 per cent ran from 5 to 10 points. The day's transactions ran up to a total of nearly 1,650,000 shares, which is the record for a day's business. The excitement was intense all day and there can be no doubt that a large volume of transactions and a record of many quotations was lost.

PHILADELPHIA, Dec. 19.—The Philadelphia stock market did not escape the panic conditions that ruled in the New York exchange, though the losses here were not so serious save in one stock, United Gas Improvement, which lost 9 1/2 points, having opened at 150 and closing at 145 1/2. Great interest was taken here in the Wall street slump, as many traders here had invested in New York stocks. The market held up fairly well until the last hour, when a semi-panic ensued. Union Traction met with a net loss of 2 1/2, Reading first preferred 1 1/2, Northern Pacific 4, Camden Steel 1 1/2, Lehigh Valley 1 1/2, Pennsylvania 1 1/2 and Electric Company of America 1 1/2.

Quotations were moved up at the close covering a part of the losses. The banks in this city continued their strict attitude regarding collateral and only loaned on gilt edged securities. There were no failures.

More to Be Sent From India—Volunteers to go From Some of the Colonies.

LONDON, Dec. 19.—The war office has been in communication with General Sir William Lockhart, commander-in-chief in India, with a view of ascertaining what troops can be spared from his forces, and it is understood that, as a result of these inquiries, a force will almost immediately leave Bombay for Durban, including four regiments of seasoned troops with an ammunition column and a brigade of artillery, including horse and field batteries. It is hoped that this force will reinforce General Buller within a month.

a strong desire to go, it is believed that only the queen's reluctance stands in the way. It is not unlikely that this will be overcome.

Lord Chesham, commanding officer of the Royal Buckinghamshire Yeomanry has been authorized to organize a force of 3,000 Yeomanry, who will proceed to the cape. The Yeomanry forces sent out will be drafted so as to work together with the mounted infantry and mounted militia from Canada and Australia.

It is understood that the volunteers selected will not form a separate corps, but will join their linked battalions of the regular forces in South Africa.

A correspondent of The Daily Mail, telegraphing from Frere camp, Natal, Dec. 15, and describing the Tugela river battle, said:

"The Boers, in great force, occupied a strong entrenched position, commanding the river and reaching back about 800 yards from its further side. General Hart's brigade, on the left, first attempted a crossing under a murderous Nordenfeldt and rifle fire. The Royal Dublin Fusiliers, the Royal Inniskilling Fusiliers, the King's Own Scottish Borderers and the Connaught Rangers crossed with superb and unflinching gallantry, but the position on the other side was found utterly untenable.

"The British suffered heavily from a perfect hail of artillery and shrapnel, while their own artillery was very badly mauled. They were, therefore, obliged to recross the river.

"On the right General Hildyard's brigade, displaying equal heroism, succeeded in entering the village of Colenso, but the Sixth battery encountered a murderous fire and was compelled to retire, leaving guns and ammunition on the veldt. This brigade also was obliged to fall back.

"Meanwhile General Barton's brigade also failed to take possession of Hlangwili, as was intended, and the entire force retired on Chieveley. General Clery was in command."

Wall Street Panic Through Fear of Combine Stocks.

CONSERVATIVES TO THE RESCUE.

Clearing House Banks Forced Exorbitant Money Rates Down by Putting \$10,000,000 Into the Breach—Two Failures, One Trust Company Handling Combine Stocks

NEW YORK, Dec. 19.—Panic conditions developed on the stock exchange with the imperative need of money developed by the violent contraction in values. Stocks were being thrown over without the slightest regard to the prices they would bring and at distressing sacrifice of values. In the last half hour of the market some \$10,000,000 was offered on the stock exchange by the concerted action of the clearing house banks to force the rate arbitrarily down to 6 per cent without regard to distracted bidding at higher rates which was being done by other brokers for distressed operators. The collapse in the money rate checked the decline and drove the bears to cover. The recoveries produced by their urgent bidding were almost as violent as the declines had been, but the losses were by no means entirely retrieved. Large offerings of stocks continued at the rally, and at some points of the list prices broke anew before the close, making the closing exceeding irregular and unsettled.

The seriousness of the crisis called forth the best efforts of powerful and conservative financial interests, who were busy concocting measures to tide over the money difficulties which beset the stock market and which, by reason of their extent and the importance of the interest involved, threaten to affect the country's business interests unless obstacles were opposed.

There was a suspension by a newly organized trust company and by a firm of bankers and brokers who have figured as traders in stocks to an extent of some importance. Neither event in itself would have been sufficient to precipitate a crisis. But they were supplemented with a whole crop of wild and incoherent rumors.

The reason for the widespread effect upon sentiment of the trust company's suspension was that it was one of a large number of institutions recently formed on similar lines and which have thriven upon the multiplying of securities incident to the industrial combinations which have been a feature of the past year. The securities of these combinations as a class have been in disfavor in Wall street for many weeks past and, in fact, ever since the headlong inflation in their prices and subsequent collapse last spring. The principal allegations against them are over-capitalization, exorbitant prices paid for constituent properties and vulnerability to existing and threatened legislation against combinations.

It has been obvious for many months past that a great deal of money had been locked up by capitalists in these new industrial combinations, which were becoming burdensome to carry by reason of the heavy demands for money in the regular channels, the large absorption of funds by reason of the government's surplus revenues and the urgent needs of the London money market growing out of the Transvaal war. Last week's threatening situation in Boston was the outgrowth of the burden of copper stocks. Thus it was that the trust company failure, coming upon last week's events in Boston, aroused the fear that the suspected class of securities were on the point of succumbing to adverse influences. In the efforts to protect these securities others were also involved, including some of the most substantial stocks on the list. The fall in prices, instead of relieving the situation, added to the weakness with cumulative force by reason of the shrinkage in the value of collaterals.

Before the concerted relief by the clearinghouse banks the money rate leaped to 50, 70 and 100 and, according to the official record, 125 per cent. Credible reports assert that 186 per cent was paid for money during the day. The official record of such a transaction was lost in the excitement. An idea of the severity of losses may be gained from a few specifications. Thus, American Tobacco fell an extreme 21½, Metropolitan 20½, People's Gas 14, Sugar 12½, Continental Tobacco 11½, Tennessee

see Coal 14, Manhatten 9 and Lehigh preferred 9½, all in the list of industrials. Wall Street Panic Through Fear of Combine Stocks.

CONSERVATIVES TO THE RESCUE.

Clearing House Banks Forced Exorbitant Money Rates Down by Putting \$10,000,000 Into the Breach—Two Failures, One Trust Company Handling Combine Stocks

NEW YORK, Dec. 19.—Panic conditions developed on the stock exchange with the imperative need of money developed by the violent contraction in values. Stocks were being thrown over without the slightest regard to the prices they would bring and at distressing sacrifice of values. In the last half hour of the market some \$10,000,000 was offered on the stock exchange by the concerted action of the clearing house banks to force the rate arbitrarily down to 6 per cent without regard to distressed bidding at higher rates which was being done by other brokers for distressed operators. The collapse in the money rate checked the decline and drove the bears to cover. The recoveries produced by their urgent bidding were almost as violent as the declines had been, but the losses were by no means entirely retrieved. Large offerings of stocks continued at the rally, and at some points of the list prices broke anew before the close, making the closing exceeding irregular and unsettled.

The seriousness of the crisis called forth the best efforts of powerful and conservative financial interests, who were busy concerting measures to tide over the money difficulties which beset the stock market and which, by reason of their extent and the importance of the interest involved, threaten to affect the country's business interests unless obstacles were opposed.

There was a suspension by a newly organized trust company and by a firm of bankers and brokers who have figured as traders in stocks to an extent of some importance. Neither event in itself would have been sufficient to precipitate a crisis. But they were supplemented with a whole crop of wild and incoherent rumors.

The reason for the widespread effect upon sentiment of the trust company's suspension was that it was one of a large number of institutions recently formed on similar lines and which have thriven upon the multiplying of securities incident to the industrial combinations which have been a feature of the past year. The securities of these combinations as a class have been in disfavor in Wall street for many weeks past and, in fact, ever since the headlong inflation in their prices and subsequent collapse last spring. The principal allegations against them are over-capitalization, exorbitant prices paid for constituent properties and vulnerability to existing and threatened legislation against combinations.

It has been obvious for many months past that a great deal of money had been locked up by capitalists in these new industrial combinations, which were becoming burdensome to carry by reason of the heavy demands for money in the regular channels, the large absorption of funds by reason of the government's surplus revenues and the urgent needs of the London money market growing out of the Transvaal war. Last week's threatening situation in Boston was the outgrowth of the burden of copper stocks. Thus it was that the trust company failure, coming upon last week's events in Boston, aroused the fear that the suspected class of securities were on the point of succumbing to adverse influences. In the efforts to protect these securities others were also involved, including some of the most substantial stocks on the list. The fall in prices, instead of relieving the situation, added to the weakness with cumulative force by reason of the shrinkage in the value of collaterals.

Before the concerted relief by the clearinghouse banks the money rate leaped to 50, 70 and 100 and, according to the official record, 125 per cent. Credible reports assert that 150 per cent was paid for money during the day. The official record of such a transaction was lost in the excitement. An idea of the severity of losses may be gained from a few specifications. Thus, American Tobacco fell an extreme 21½, Metropolitan 20½, People's Gas 14, Sugar 12½, Continental Tobacco 11½, Tennessee

see Coal 11, Mammath 9 and Leinen preferred 9½, all in the list of industrials. In the railroad list such stocks as Northwest, New York Central, Great Northern preferred, Rock Island, Southern Pacific, the Union Pacific, the Northern Pacific, Atchison preferred and, in fact, the most prominent and active railroad stocks in the whole list showed losses all the way from 4 to 9 points.

The rallies with the final offerings down of the money rate to 6 per cent ran from 5 to 10 points. The day's transactions ran up to a total of nearly 1,650,000 shares, which is the record for a day's business. The excitement was intense all day and there can be no doubt that a large volume of transactions and a record of many quotations was lost.

PHILADELPHIA, Dec. 19.—The Philadelphia stock market did not escape the panic conditions that ruled in the New York exchange, though the losses here were not so serious save in one stock, United Gas Improvement, which lost 9½ points, having opened at 155 and closing at 145½. Great interest was taken here in the Wall street slump, as many traders here had invested in New York stocks. The market held up fairly well until the last hour, when a semi-panic ensued. Union Traction met with a net loss of 27½, Reading first preferred 12½, Northern Pacific 4, Camden Steel 12½, Lehigh Valley 1½, Pennsylvania 12½ and Electric Company of America 12½.

Quotations were moved up at the close covering a part of the losses. The banks in this city continued their strict attitude regarding collateral and only loaned on gilt edged securities. There were no failures.

BOSTON, Dec. 19.—Confidence in financial circles in this city was apparently restored by the united efforts of bankers and brokers only to be again shaken by the failures in New York.

The local stock market quickly followed New York in the stock decline, but the slump did not bring with it any failures among local brokers. Copper stocks underwent a further contraction.

The offer of the clearing house association to assist any solvent bank in temporary straits probably did much to ease matters here and coupled with it came the report of a satisfactory showing on the part of both the two banks in difficulty—the Globe and the Broadway—and also from the assize of J. P. Squire and company the failed pork packers.

It is understood, however, that the affairs of all the banks which hold loans in copper stocks and other securities which have shown sharp declines, are being thoroughly investigated and if any is found in a particularly bad state it will be closed.

TROOPS FOR SOUTH AFRICA.

More to Be Sent From India—Volunteers to Go From Some of the Colonies.

LONDON, Dec. 19.—The war office has been in communication with General Sir William Lockhart, commander-in-chief in India, with a view of ascertaining what troops can be spared from his forces, and it is understood that, as a result of these inquiries, a force will almost immediately leave Bombay for Durban, including four regiments of seasoned troops with an ammunition column and a brigade of artillery, including horse and field batteries. It is hoped that this force will reinforce General Buller within a month.

The Duke of Connaught visited the war office yesterday. Since the appointment of Lord Roberts as commander-in-chief in South Africa, the question of rank no longer bars the duke from going to the front, as he has

a strong desire to go, it is believed that only the queen's reluctance stands in the way. It is not unlikely that this will be overcome.

Lord Chesham, commanding officer of the Royal Buckinghamsire Yeomanry, has been authorized to organize a force of 3,000 Yeomanry, who will proceed to the cape. The Yeomanry forces sent out will be drafted so as to work together with the mounted infantry and mounted militia from Canada and Australia.

It is understood that the volunteers selected will not form a separate corps, but will join their linked battalions of the regular forces in South Africa.

A correspondent of The Daily Mail, telegraphing from Frere camp, Natal, Dec. 15, and describing the Tugela river battle, said:

"The Boers, in great force, occupied a strong entrenched position, commanding the river and reaching back about 800 yards from its further side. General Hart's brigade, on the left, first attempted a crossing under a murderous Nordenfeldt and rifle fire. The Royal Dublin Fusiliers, the Royal Inniskilling Fusiliers, the King's Own Scottish Borderers and the Connaught Rangers crossed with superb and unflinching gallantry, but the position on the other side was found utterly untenable.

"The British suffered heavily from a perfect hail of artillery and shrapnel, while their own artillery was very badly mauled. They were, therefore, obliged to recross the river.

"Meanwhile General Barton's brigade, also to take possession of Hlangwile, as was intended, and the entire force retired on Chieveley. General Clery was in command."

AGAINST M'GIFFERT'S TEACHINGS.

Action Was Taken by the New York Presbytery.

NEW YORK, Dec. 19.—The New York presbytery adopted resolutions disapproving of the teachings of Rev. Dr. A. C. McGiffert. The McGiffert matter was disposed of finally, as far as the New York presbytery is concerned.

The resolutions, prepared by Rev. Dr. Henry Van Dyke and Rev. Dr. Howard Johnston, find that the teachings of the book entitled "A History of Christianity in the Apostolic Age," by Rev. A. C. McGiffert, are erroneous and liable to be misunderstood.

General Otis cabled the war department as follows:

WASHINGTON, Dec. 19.—Admiral Watson sent a cablegram as follows:

"MANILA, Dec. 17.—Seaman Rynders of the Yorktown, captured at Baler, recaptured, with Woodbury, by cavalry at Bayombong, has reported on board the flagship; both wounded when Gilmore was taken and left behind; he reports Nygard, McDonald, Dillon, Morrisey killed. Rynders, Woodbury, Venville wounded in foot, unable to travel. Doing well Baler, June 15. Expect Woodbury tomorrow; wounded not cared for; wounds received personal care. Woodbury and Rynders walked nearly to Manila.

(Signed) "WATSON."

The above showed that 11 of the original party of 15 are still alive. The man Rynders, who brings this news, was coxswain of the Yorktown, a native of Amsterdam, but a resident of San Francisco, where he shipped. The four dead men mentioned enlisted at the following points: Nygard, a Russian, at Brooklyn; McDonald, of Carmel Valley, Cal., at Mare Island; Dolan, a native of Peru, Ind., at Mare Island, and Morrisey, a native of Columbus, Neb., also at Mare Island.

"MANILA, Dec. 19.—Hughes reports from Rombon island his arrival at Capiz, North Panay, 10th inst., driving out all Tagalos. Carpenter, with six companies, is occupying Northern Panay, two companies on Rombon island. Hughes, with battalions Nineteenth infantry, has gone to Cebu to police that island. Young, Northern Luzon, reports several minor engagements, with few casualties. Colonel Hare, with small column, still in pursuit of insurgents' column which has American prisoners, has passed through mountains and is marching on Pamplona, short distance east of Aparsi, navy cooperating. Seven hundred and thirty-one Spanish prisoners arrived last evening; 500 more expected today; 1,400 leave for Spain this afternoon."

MANILA, Dec. 19.—General Lawton was to start last night from Manila with the Eleventh cavalry, under Colonel Lockett, and battalions of the Twenty-ninth and Twenty-seventh infantry, under Lieutenant Colonel Sargent, to capture San Mateo, where Geronomo has 300 insurgents.

General Grant nearly cleared Zarbolas province. He discovered hidden in Subig bay a steamer, the Don Francis-

co. of 180 tons, fully equipped and loaded. She is supposed to be the vessel Aguinaldo was keeping ready for his escape. Captain Layson, of the Thirty-second regiment, has routed an insurgent band in Zambo's province, killing several officers. Major Smith, with

LIEUTENANT J. C. GILLMORE

three companies of the Seventeenth surrounded and captured another band of guerrillas which were terrorizing a large section north. The troops killed several of the band.

General Hughes captured insurgent strongholds at Leapiz and Rombon, the navy co-operating. One man was killed and one wounded.

The insurgents in the island of Panay are apparently suppressed.

The old board, which has been in use since the station was opened, has been found to be too small to serve its purpose, and a larger one has been found necessary. The new board will correspond with that in the Central fire station, and it is expected it will be completed within the next two weeks.

Work on Buildings Will Be Commenced Soon—Many Slips Occurred on the Grading—Talking About Paved Streets. Chester Mechanics Elect Officers.

Saturday the Chester rolling mill company made a deed to the Panhandle railway company for six lots in their plot near the entrance to Rock Spring. These lots were given to the company for station purposes, and both the freight and passenger buildings will be built there. Early in the summer John Shrader offered the company two lots near the restaurant of Elmer Good for station purposes, but nothing was ever done with the offer. The new station, it is said, will be of brick, and the latest design of a station will be built.

MANY SLIPS.

Rain Causes More Earth to Slip on the Extension Route.

During the night several large slips occurred on the hill above the grading of the Panhandle extension opposite Market street. Not only did parts of the hill slip but much of the bank was also washed in the river. The steam shovel is still in a bad place but as the grading is almost completed it will not hinder any work that remains to be done.

ELECTED OFFICERS.

Chester Mechanics Held an Interesting Meeting Last Evening.

Last night the annual election of officers of the Chester Mechanics was held. The election resulted as follows: Councillor, Eph. Johnson; vice councillor, William McLean; treasurer, James Finley; financial secretary, William Bambrick; trustee, Enoch Riley.

PAVED STREETS.

It Will Be Several Years Before They Are a Reality.

The heavy rain of last night caused the streets of Chester to be in a terrible condition this morning. In some places wagons were pulled through mud up to the hubs. There is talk among some of the residents of the suburban town of having the streets paved but that is a matter that will be considered seriously in later years.

The Mill Enclosed.

The last of the work toward enclosing the main building at the mill plant was completed yesterday. The force of workmen is being increased, making preparation for the many tons of machinery which is expected to arrive within the next few weeks.

EAST LIVERPOOL, O. TUESDAY, DEC. 19.

FOR PRESIDENT--Second Term.
WM. M'KINLEY,
of Ohio.

THE condition of suburban streets after the rain is as usual.

AGUINALDO is now reported in disguise. Also in disgust.

THE new currency bill, standing for a gold dollar, passed as easily.

If those Pennsylvania congressmen want recognition they'd better move over into Ohio.

THE proposed Women's Humane society is a good thing. There is lots of work for it to do.

STRANGE that it required a war in South Africa to remind people Ireland was still on the map!

THE Wellsville Union need no longer be alarmed over a prospective influx of undesirable oil boomers.

"BEAUTIFUL Snow" has got its quietus, but the "Night Before Christmas" is still doing business at the old stand.

ELEVEN Democrats voted with the Republican majority in passing the currency bill. Some Democrats are pretty good fellows.

Now that the navy department has deeded that Dewey gun to Three Oaks, the little Michigan village ought to sit down and be quiet.

THE increase in pottery imports for the year over 1898 need not worry anyone. It's nothing compared to the increase in the home output.

SPAIN says she will never cede or sell her African possessions under any circumstances. Reads like one of Blanco's Havana proclamations, doesn't it?

PORTO RICO is becoming thoroughly Americanized in short order. The Republicans have carried Ponce and about every other town on the island.

THIS man Andrews, of Chicago, who is predicting universal war, is the same who predicted universal calamity if Bryan wasn't elected. He can't help it.

BRIGHAM ROBERTS will scarcely be as popular in Utah as he might have been if he hadn't informed on polygamist friends who were holding minor Federal offices on false pretenses.

It would be to the universal advantage of the country if the five minute speech limit, used in the currency bill debate, was extended to all congressional business.

AS ANTICIPATED, Speaker Henderson has re-appointed R. W. Tayler chairman of house elections committee No.

1. Mr. Tayler's appointment as chairman of the special Roberts committee was outside the regular committees and a special honor.

AN OBJECT LESSON.

The absurdity of the Bryanite contention that the United States should do this and that "without the aid or consent of any other nation on earth" was well shown yesterday by the effect upon Wall street of the collapse in the London market resulting from British reverses in South Africa. In this age of civilization the effect of events in dis-

tant lands travels quickly and affects all more or less. No nation is immune against the misfortunes of another.

LAWBREAKERS.

The following, from the Buckeye State, will meet with the approval of all law abiding citizens: "It is evident to anyone who has cared to note, even cursorily, the proceedings of the common pleas court that there are a number of saloonkeepers in the county who almost openly defy the law, and each succeeding term are arraigned, plead guilty, pay their fines and return to re-engage in flagrant violations of the statutes. There must be money in such methods, else they would not be so consistently followed. Perhaps some day we may have a law that will render such repeated violations impossible—a statute, for instance, that will forbid any person who has been twice convicted of offenses against the liquor laws ever again engaging in the business, either as principal or agent. If criminals after a third conviction of felonious crimes can be sentenced to imprisonment for life as habituals, it would certainly be proper that those who habitually violate the laws in restraint of the liquor traffic should be denied the right to continue in the business."

COMING ATTRACTIONS.

"The Heart of Maryland," to be presented at the Grand this evening under the auspices of the Knights of Pythias, is one of the best shows on the road and the advance sale of seats insures a packed house. No person can afford to miss the show tonight.

1. Mr. Tayler's appointment as chairman of the special Roberts committee was outside the regular committees and a special honor.

AN OBJECT LESSON.

The absurdity of the Bryanite contention that the United States should do this and that "without the aid or consent of any other nation on earth" was well shown yesterday by the effect upon Wall street of the collapse in the London market resulting from British reverses in South Africa. In this age of civilization the effect of events in dis-

tant lands travels quickly and affects all more or less. No nation is immune against the misfortunes of another.

LAWBREAKERS.

The following, from the Buckeye State, will meet with the approval of all law abiding citizens: "It is evident to anyone who has cared to note, even cursorily, the proceedings of the common pleas court that there are a number of saloonkeepers in the county who almost openly defy the law, and each succeeding term are arraigned, plead guilty, pay their fines and return to re-engage in flagrant violations of the statutes. There must be money in such methods, else they would not be so consistently followed. Perhaps some day we may have a law that will render such repeated violations impossible—a statute, for instance, that will forbid any person who has been twice convicted of offenses against the liquor laws ever again engaging in the business, either as principal or agent. If criminals after a third conviction of felonious crimes can be sentenced to imprisonment for life as habituals, it would certainly be proper that those who habitually violate the laws in restraint of the liquor traffic should be denied the right to continue in the business."

REQUEST WAS GRANTED

The First Presbyterian Congregation Acceded to

THE WISHES OF DOCTOR LEE

And the Pastoral Relations Will Be Severed—The Congregation Took the Action With the Greatest Reluctance and Only at the Request of the Pastor.

The congregation of the First Presbyterian church at the meeting held last night accepted the resignation of the pastor, Dr. John Lloyd Lee.

George C. Murphy acted as chairman of the meeting, and Dr. Lee stated that he felt that the time had arrived for the pastor and people to part. He said this action had been taken entirely on account of the illness in his family and he had no charge and didn't know where he would go.

The congregation was very reluctant to accept the pastor's resignation and wanted to give him an extended vacation while others wanted to lay the entire matter over until April 1. The pastor would not agree to this and said that in justice to the congregation he thought his request should be granted.

The Motion Carried.

Finally the motion to accept the resignation was put and carried, but some of the congregation voted against it despite the earnest plea of the pastor that his wish be granted. Supt. R. E. Rayman was selected to convey the wish of the pastor and people to the Steubenville Presbytery now in session at Steubenville.

Resolutions Adopted.

Superintendent Rayman, Dr. W. N. Bailey and F. D. Kitchel were appointed a committee to draft resolutions, which they afterwards submitted to the congregation. The resolutions were adopted unanimously and spoke of the splendid work Doctor Lee had done for the church, his noble Christian character and with what deep feelings of regret the congregation would part with him.

Doctor Lee and Superintendent Rayman left this morning to attend Steubenville presbytery, now in session at Steubenville, and action on the resignation will probably be taken today.

BEING CLOSED UP.

Affairs of the Lisbon National Bank Being Adjusted Rapidly.

LISBON, Dec. 19.—[Special]—Judge J. G. Moore, attorney for I. B. Cameron, receiver of the First National bank, presented several matters to Judge Day, of the United States circuit court in Cleveland, connected with the affairs of the bank. Court authorized the receiver to settle the stockholders' liabilities against Mrs. Mary A. Benner, Mrs. Mary Mason, Mrs. Charlotte M. Kyle and Julia M. Burns. The liability of these stockholders amounted to \$8,400 and the amount to be paid under the settlement is \$2,900. Outside of the liability of the bondsmen on Child's bond and the liability of the directors, if there be any the amount of assets yet to be turned into money will reach about \$20,000. Taken all in all the bank may pay fair dividends to its creditors.

A WOMAN'S BACK.

The Aches and Pains Will Disappear If the Advice of This East Liverpool Citizen Is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault. Backache is really kidney ache.

That's why Doan's kidney pills cure it.

Many East Liverpool women know this.

Read what one has to say about it:

Mrs. Carolina White, of 225 Railroad street, East End, says: "I used Doan's kidney pills and found great relief from the treatment, although I am 70 years of age, and had about given up all hope of ever being helped. I took medicines, my back ached just the same, grew stiff and lame when sitting long or when lying in bed, and sharp twinges of pain and other symptoms convinced me my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's kidney pills so highly spoken of I got a box at the W. & W. pharmacy. After using them for a short time I could plainly notice the good effect they were causing.

I continued some time longer and gradually but surely improved. I found Doan's kidney pills a splendid remedy and advise others to try them, feeling confident if they do so they will have no cause to regret it."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

The pursuit of pleasure is often as dangerous to life as the pursuit of "the bubble reputation even at the cannon's mouth." Late hours, the breathing of a vitiated atmosphere, rich foods, and irregular rest, must result in a depleted vitality. There is a feeling of languor, the appetite fails, sleep does not refresh, life loses its interest, and nervousness or hysteria may make life miserable.

The preservation of the healthful tone of the body depends chiefly on keeping the blood pure, and the stomach and other organs of digestion and nutrition in a condition of health. When any of the above mentioned symptoms appear the timely use of Dr. Pierce's Golden Medical Discovery will restore the body to a healthy equipoise. It purifies the blood, nourishes the nerves, and restores the deranged stomach and its allied organs to a condition of sound health.

There is no alcohol, whisky or other stimulant contained in "Golden Medical Discovery."

"I was troubled with very frequent headaches often accompanied by severe vomiting," writes Miss Mary Bell Summerton, of San Diego, Duval Co., Texas. "Bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing for twenty-four hours at a time. I was entirely unfit for work, and my whole system run down. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake the duties attending public school life. I most heartily advise those suffering with indigestion, and its attendant evils, to give this great medicine a fair trial."

Dr. Pierce's Pleasant Pellets cleanse and regulate the stomach, liver and bowels. They produce permanent benefit and do not react on the system. One is a gentle laxative.

REQUEST WAS GRANTED

The First Presbyterian Congregation Acceded to

THE WISHES OF DOCTOR LEE

And the Pastoral Relations Will Be Severed—The Congregation Took the Action With the Greatest Reluctance and Only at the Request of the Pastor.

The congregation of the First Presbyterian church at the meeting held last night accepted the resignation of the pastor, Dr. John Lloyd Lee.

George C. Murphy acted as chairman of the meeting, and Dr. Lee stated that he felt that the time had arrived for the pastor and people to part. He said this action had been taken entirely on account of the illness in his family and he had no charge and didn't know where he would go.

The congregation was very reluctant to accept the pastor's resignation and wanted to give him an extended vacation while others wanted to lay the entire matter over until April 1. The pastor would not agree to this and said that in justice to the congregation he thought his request should be granted.

The Motion Carried.

Finally the motion to accept the resignation was put and carried, but some of the congregation voted against it despite the earnest plea of the pastor that his wish be granted. Supt. R. E. Rayman was selected to convey the wish of the pastor and people to the Steubenville Presbytery now in session at Steubenville.

Resolutions Adopted.

Superintendent Rayman, Dr. W. N. Bailey and F. D. Kitchel were appointed a committee to draft resolutions, which they afterwards submitted to the congregation. The resolutions were adopted unanimously and spoke of the splendid work Doctor Lee had done for the church, his noble Christian character and with what deep feelings of regret the congregation would part with him.

Doctor Lee and Superintendent Rayman left this morning to attend Steubenville presbytery, now in session at Steubenville, and action on the resignation will probably be taken today.

Affairs of the Lisbon National Bank Being Adjusted Rapidly.

LISBON, Dec. 19.—[Special]—Judge J. G. Moore, attorney for I. B. Cameron, receiver of the First National bank, presented several matters to Judge Day, of the United States circuit court in Cleveland, connected with the affairs of the bank. Court authorized the receiver to settle the stockholders' liabilities against Mrs. Mary A. Benner, Mrs. Mary Mason, Mrs. Charlotte M. Kyle and Julia M. Burns. The liability of these stockholders amounted to \$8,400 and the amount to be paid under the settlement is \$2,900. Outside of the liability of the bondsmen on Child's bond and the liability of the directors, if there be any the amount of assets yet to be turned into money will reach about \$20,000. Taken all in all the bank may pay fair dividends to its creditors.

A WOMAN'S BACK.

The Aches and Pains Will Disappear If the Advice of This East Liverpool Citizen Is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault. Backache is really kidney ache.

That's why Doan's kidney pills cure it.

Many East Liverpool women know this.

Read what one has to say about it:

Mrs. Carolina White, of 225 Railroad street, East End, says: "I used Doan's kidney pills and found great relief from the treatment, although I am 70 years of age, and had about given up all hope of ever being helped. I took medicines, my back ached just the same, grew stiff and lame when sitting long or when lying in bed, and sharp twinges of pain and other symptoms convinced me my kidneys were out of order. Always on the lookout for anything that might bring relief, when I heard Doan's kidney pills so highly spoken of I got a box at the W. & W. pharmacy. After using them for a short time I could plainly notice the good effect they were causing. I continued some time longer and gradually but surely improved. I found Doan's kidney pills a splendid remedy and advise others to try them, feeling confident if they do so they will have no cause to regret it."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

The pursuit of pleasure is often as dangerous to life as the pursuit of "the bubble reputation even at the cannon's mouth." Late hours, the breathing of an invigorated atmosphere, rich foods, and irregular rest, must result in a depleted vitality. There is a feeling of languor, the appetite fails, sleep does not refresh, he loses his interest, and nervousness or hysteria may make life miserable.

The preservation of the healthful tone of the body depends chiefly on keeping the blood pure, and the stomach and other organs of digestion and nutrition in a condition of health. When any of the above mentioned symptoms appear the timely use of Dr. Pierce's Golden Medical Discovery will restore the body to a healthy equipoise. It purifies the blood, nourishes the nerves, and restores the deranged stomach and its allied organs to a condition of sound health.

There is no alcohol, whisky or other stimulant contained in "Golden Medical Discovery."

"I was troubled with very frequent headaches often accompanied by severe vomiting," writes Miss Mary Bell Summerton, of San Diego, Duval Co., Texas. "Bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing for twenty-four hours at a time. I was entirely unfit for work, and my whole system run down. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake the duties attending public school life. I most heartily advise those suffering with indigestion, and its attendant evils, to give this great medicine a fair trial."

Dr. Pierce's Pleasant Pellets cleanse and regulate the stomach, liver and bowels. They produce permanent benefit and do not react on the system. One is a gentle laxative.

THE VOTE 190 TO 150.

Currency Bill Went Through
In the House.

ELEVEN DEMOCRATS VOTED FOR IT.

Among Them Was McAleer of Pennsylvania—Silver Republican Leaders Issued an Address, Criticising the Attitude of the Old Party—Condemned the Bill.

WASHINGTON, Dec. 19.—The currency bill was passed by the house by a vote of 190 to 150. It had the united support of every Republican in the house and of 11 Democrats—Messrs. Clayton, Driggs, Fitzgerald, Levy, Ruppert, Scudder, Underhill and Wilson (N. Y.), McAleer (Pa.), Denny (Md.) and Thayer (Mass.). All the other Democrats voted against the measure or were party against it except Mr. John Walter Shinn, governor-elect from Maryland, Stallings (Ala.) and General Joseph Wheeler (Ala.). Mr. Stallings (Ala.) has not been present in the house this session owing to illness, and one of his colleagues announced that if present he would have voted in the negative. General Wheeler is serving in the Philippines.

When the speaker announced the result the Republicans cheered lustily. After the vote the speaker rather unexpectedly announced the committee selections, and the reading of the lists was followed with intense eagerness by the members whose opportunities for distinction depend so largely upon their committee assignments. The only incident in connection with the reading of the lists was Mr. Bailey's interrogation of the speaker as to whether General Wheeler's name had been placed upon the committee on ways and means. Speaker Henderson responded in the negative. Announcement of the death of the late Representative Bland of Missouri, which occurred last summer, caused an early adjournment.

After the passage by the house of the financial bill the Silver Republican leaders in the city held a meeting and adopted an address setting forth their views as to its effect.

They accused the president and leaders of the Republican party of insincerity in declaring in the St. Louis platform for by bimetallism by international agreement. They said that by this means millions of voters were held in line.

As soon as the election was over the great Republican newspapers began to discard their convenient ambiguities about sound money and honest money and to claim the result as a definite verdict in favor of gold. The president soon showed by his actions that he no longer considered the pro-election construction of the platform to be binding. His appointment as secretary of the treasury of perhaps the most conspicuous gold standard advocate among the great bankers of the country was obviously not especially designed to "promote" any kind of bimetallism. To be sure there was sent abroad the alleged international monetary commission.

But for fear that after all foreign governments might take the procedure seriously, he sent to Congress in July, 1897, at the very moment when his commission's proposals were before the English cabinet, a special message recommending the so-called Indianapolis monetary convention plan, with its program of the single gold standard, retirement of the greenbacks and extension of the powers, privileges and immunities of the national banks. Meantime his secretary of the treasury was declaring in interview after interview, most of which were carefully reproduced in Europe that bimetallism of any kind, international or otherwise, was "not only impossible, but undesirable."

"The statement further said in part:

"... the international agreement for the free coinage of silver having failed to be 'promoted' steps are now taken to insure that the gold standard shall be preserved."

"The present bill 'preserves' it with a vengeance. The vast bonded debt of the country now payable in 'coin,' that is either in gold or silver, is to be made payable in gold alone. Nearly half a billion of standard silver dollars, heretofore not redeemable in anything not constituting a burden on either the gold reserve or the credit of the government, but forming a large percentage of our basic money, redeemable in gold, thus increasing tremendously the strain on that metal and becoming an 'endless chain' with which to pull gold from the treasury and affording an excuse for the final destruction of the silver dollars as money, and their forced sale as bullion, after the manner of the German procedure in 1872."

The greenbacks are to be virtually destroyed by being changed into gold certificates, to be locked up in the treasury and paid out only for gold. The tax on the circulation of the national banks is to be reduced and the amount of the

bank currency they may issue on government bonds deposited is to be increased from 90 per cent to par of the bonds, thus making their business enormously more profitable, opening the way to an immediate possible inflation of banknotes, not legal tender, excellent for getting into debt on but unavailable for getting out of debt with, to the extent of \$200,000,000; and placing the regulation of the volume of money, and hence the determination of prices and the burden of debts absolutely in the power of the banks and the creditor class.

This statement is signed by Charles A. Towne, chairman committee; Henry M. Teller, R. F. Pettigrew, Frank J. Cannon, Edgar Wilson, Charles S. Hartman, John Shafroth and Fred T. DuBois, chairman executive committee.

BOLD PIECE OF BOODLING.

Alleged Michigan Paid For the Same Clothing For Militia Twice.

LANSING, Mich., Dec. 19.—According to allegations made here and based on results of grand jury investigations, the state military board is alleged to have sold last July to the "Illinois Supply Company," of Chicago, for \$10,500 absolutely new clothing, goods and equipments estimated to have inventoried at \$53,000. It is further alleged that what were alleged to be the same goods were soon afterward purchased by the board from the Henderson and Ames Manufacturing Company of Kalamazoo.

It is alleged to be a fact that the "Illinois Supply company" was a fake concern, created by persons interested in the Kalamazoo company for purposes only of the alleged sale. It is stated that at the same meeting at which the board decided to sell these goods a resolution was adopted authorizing the quartermaster general to purchase an equipment of precisely the same class of goods and that this was done at a cost of over \$60,000.

A draft for \$10,000 was soon received and four carloads of goods were shipped from the state armory to Chicago. Addison C. Cobb, an employee of the Chicago Beach hotel, received them there and, without breaking the seals, reshipped them to the Henderson Ames company, at Kalamazoo.

EVENTS IN BRIEF.

The suspension of the firm of Henry Allen & Co., bankers and brokers of New York, was announced on the stock exchange.

The San Francisco Call said that Howard Tuttle, recently reported to have committed suicide by jumping into the bay on account of unrequited love, is alive.

The Produce Exchange Trust company of New York closed its doors. A notice upon the door said that the company had suspended payment pending an examination of its books.

Mrs. John A. Logan, Jr., accompanied by her three children and mother arrived from Youngstown, O., at San Diego, Cal. They will await the arrival of the body of Major John A. Logan, who was killed in the Philippines.

An amended scale of wages has been decided upon by the cloth weavers of Philadelphia and will be presented to the manufacturers during the current week. The scale calls for a general increase of 15 per cent.

David Clark, who lived near Clarksburg, Penn. township, Allegheny county, Pa., died of injuries received on Dec. 11. He was employed in the mines of the New York and Cleveland Gas Coal company and he was hurt by the pit cars. He was unmarried.

Three persons were burned and a fourth injured by jumping from a second story window of tenement house fire in Jefferson avenue, Hoboken. Dennis Sullivan, aged 43, was burned about the hands and face and his recovery is doubtful. Three children sustained minor injuries.

The fate of the schooners Howard H. Hanscom and James B. Pace, which sailed from Philadelphia November, 1898, for New England ports and were never afterward heard from, was learned. Divers located both vessels sunk on the southern coast of Massachusetts, apparently in collision. In both skeletons of men were found lashed to the rigging or to the rail.

The Michigan legislature met in special session in response to a call of Governor Pingree. The governor's object was to secure passage of a joint resolution providing for submission to the people at the general election next November of an amendment to the state constitution placing railways upon the same basis for taxation as all other property. At present the railways pay specific taxes upon gross earnings.

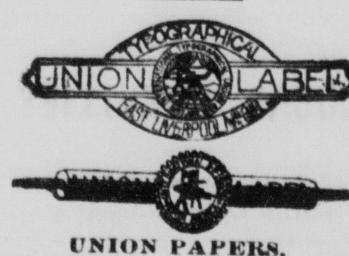

The waiter girl knew a thing or two about table etiquette, so she sniffed scornfully as she said, "It's not our custom to serve a knife with pie."

"No?" remarked the patron in surprise. "Then bring me an ax."—Philadelphia Record.

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the current organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

THE VOTE 190 TO 150.

Currency Bill Went Through In the House.

ELEVEN DEMOCRATS VOTED FOR IT.

Among Them Was McAleer of Pennsylvania—Silver Republican Leaders Issued an Address, Criticising the Attitude of the Old Party—Condemned the Bill.

WASHINGTON, Dec. 19.—The currency bill was passed by the house by a vote of 190 to 150. It had the united support of every Republican in the house and of 11 Democrats—Messrs. Clayton, Driggs, Fitzgerald, Levy, Ruppert, Scudder, Underhill and Wilson (N. Y.), McAleer (Pa.), Denny (Md.) and Thayer (Mass.). All the other Democrats voted against the measure or were paired against it except Mr. John Walter Smith, governor-elect from Maryland. Stallings (Ala.) and General Joseph Wheeler (Ala.). Mr. Stallings (Ala.) has not been present in the house this session owing to illness, and one of his colleagues announced that if present he would have voted in the negative. General Wheeler is serving in the Philippines.

When the speaker announced the result the Republicans cheered lustily. After the vote the speaker rather unexpectedly announced the committee selections, and the reading of the lists was followed with intense eagerness by the members whose opportunities for distinction depend so largely upon their committee assignments. The only incident in connection with the reading of the lists was Mr. Bailey's interrogatory of the speaker as to whether General Wheeler's name had been placed upon the committee on ways and means. Speaker Henderson responded in the negative. Announcement of the death of the late Representative Bland of Missouri, which occurred last summer, caused an early adjournment.

After the passage by the house of the financial bill the Silver Republican leaders in the city held a meeting and adopted an address setting forth their views as to its effect.

They accused the president and leaders of the Republican party of insincerity in declaring in the St. Louis platform for bimetallism by international agreement. They said that by this means millions of voters were held in line.

As soon as the election was over the great Republican newspapers began to discard their convenient ambiguities about sound money and honest money and to claim the result as a definite verdict in favor of gold. The president soon showed by his actions that he no longer considered the pre-election construction of the platform to be binding. His appointment as secretary of the treasury of perhaps the most conspicuous gold standard advocate among the great bankers of the country was obviously not especially designed to "promote" any kind of bimetallism. To be sure there was sent abroad the alleged international monetary commission.

But for fear that after all foreign governments might take the procedure seriously, he sent to Congress in July, 1897, at the very moment when his commission's proposals were before the English cabinet, a special message recommending the so called Indianapolis monetary convention plan, with its program of the single gold standard, retirement of the greenbacks and extension of the powers, privileges and immunities of the national banks. Meantime his secretary of the treasury was declaring in interview after interview, most of which were carefully reproduced in Europe that bimetallism of any kind, international or otherwise, was not only impossible, but undesirable.

"The statement further said in part: 'The international agreement for the free coinage of silver having failed to be promoted steps are now taken to insure that the gold standard shall be preserved.'

"The present bill 'preserves' it with a vengeance. The vast bonded debt of the country now payable in coin, that is either in gold or silver, is to be made payable in gold alone. Nearly half a billion of standard silver dollars, heretofore not redeemable in anything not constituting a burden on either the gold reserve or the credit of the government, but forming a large percentage of our basic money, redeemable in gold, thus increasing tremendously the strain on that metal and becoming an 'endless chain' with which to pull gold from the treasury and affording an excuse for the final destruction of the silver dollars as money, and their forced sale as bullion, after the manner of the German procedure in 1872."

The greenbacks are to be virtually destroyed by being changed into gold certificates, to be locked up in the treasury and paid out only for gold. The tax on the circulation of the national banks is to be reduced and the amount of the

bank currency they may issue on government bonds deposited is to be increased from 90 per cent to par of the bonds, thus making their business enormously more profitable, opening the way to an immediate possible inflation of banknotes, not legal tender, except for getting into debt on but unavailable for getting out of debt with, to the extent of \$200,000,000; and placing the regulation of the volume of money, and hence the determination of prices and the burden of debts absolutely in the power of the banks and the creditor class.

This statement is signed by Charles A. Towle, chairman committee; Henry M. Teller, R. F. Pettigrew, Frank J. Cannon, Edgar Wilson, Charles S. Hartman, John Shafron and Fred T. DuBois, chairman executive committee.

BOLD PIECE OF BOODLING.

Alleged Michigan Paid For the Same Clothing For Militia Twice.

LANSING, Mich., Dec. 19.—According to allegations made here and based on results of grand jury investigations, the state military board is alleged to have sold last July to the "Illinois Supply Company," of Chicago, for \$10,500 absolutely new clothing, goods and equipments estimated to have inventoried at \$53,000. It is further alleged that what were alleged to be the same goods were soon afterward purchased by the board from the Henderson and Ames Manufacturing Company of Kalamazoo.

It is alleged to be a fact that the "Illinois Supply company" was a fake concern, created by persons interested in the Kalamazoo company for purposes only of the alleged sale. It is stated that at the same meeting at which the board decided to sell these goods a resolution was adopted authorizing the quartermaster general to purchase an equipment of precisely the same class of goods and that this was done at a cost of over \$60,000.

A draft for \$10,000 was soon received and four carloads of goods were shipped from the state armory to Chicago. Addison C. Cobb, an employe of the Chicago Beach hotel, received them there and, without breaking the seals, reshipped them to the Henderson Ames company, at Kalamazoo.

TWO CENTS

A BLOW AT TRUSTS

Wall Street Panic Through Fear of Combine Stocks.

CONSERVATIVES TO THE RESCUE.

Clearing House Banks Forced Exorbitant Money Rates Down by Putting \$10,000,000 Into the Breach—Two Failures, One Trust Company Handling Combine Stocks

NEW YORK, Dec. 19.—Panic conditions developed on the stock exchange with the imperative need of money developed by the violent contraction in values. Stocks were being thrown over without the slightest regard to the prices they would bring and at distressing sacrifice of values. In the last half hour of the market some \$10,000,000 was offered on the stock exchange by the concerted action of the clearing house banks to force the rate arbitrarily down to 6 per cent without regard to distracted bidding at higher rates which was being done by other brokers for distressed operators. The collapse in the money rate checked the decline and drove the bears to cover. The recoveries produced by their urgent bidding were almost as violent as the declines had been, but the losses were by no means entirely retrieved. Large offerings of stocks continued at the rally and at some points of the list prices broke anew before the close, making the closing exceeding irregular and unsettled.

The seriousness of the crisis called forth the best efforts of powerful and conservative financial interests, who were busy concocting measures to tide over the money difficulties which beset the stock market and which, by reason of their extent and the importance of the interest involved, threaten to affect the country's business interests unless obstacles were opposed.

There was a suspension by a newly organized trust company and by a firm of bankers and brokers who have figured as traders in stocks to an extent of some importance. Neither event in itself would have been sufficient to precipitate a crisis. But they were supplemented with a whole crop of wild and incoherent rumors.

The reason for the widespread effect upon sentiment of the trust company's suspension was that it was one of a large number of institutions recently formed on similar lines and which have thriven upon the multiplying of securities incident to the industrial combinations which have been a feature of the past year. The securities of these combinations as a class have been in disfavor in Wall street for many weeks past and, in fact, ever since the headlong inflation in their prices and subsequent collapse last spring. The principal allegations against them are overcapitalization, exorbitant prices paid for constituent properties and vulnerability to existing and threatened legislation against combinations.

It has been obvious for many months past that a great deal of money had been locked up by capitalists in these new industrial combinations, which were becoming burdensome to carry by reason of the heavy demands for money in the regular channels, the large absorption of funds by reason of the government's surplus revenues and the urgent needs of the London money market growing out of the Transvaal war. Last week's threatening situation in Boston was the outgrowth of the burden of copper stocks. Thus it was that the trust company failure, coming upon last week's events in Boston, aroused the fear that the suspected class of securities were on the point of succumbing to adverse influences. In the efforts to protect these securities others were also involved, including some of the most substantial stocks on the list. The fall in prices, instead of relieving the situation, added to the weakness with cumulative force by reason of the shrinkage in the value of collaterals.

Before the concerted relief by the clearinghouse banks the money rate leaped to 50, 70 and 100 and, according to the official record, 125 per cent. Credible reports assert that 186 per cent was paid for money during the day. The official record of such a transaction was lost in the excitement. An idea of the severity of losses may be gained from a few specifications. Thus, American Tobacco tell an extreme 21½, Metropolitan 20½, People's Gas 14, Sugar 12½, Continental Tobacco 11½, Tennessee

see Coal 17, Manhattan 9 and leather preferred 9½, all in the list of industrials. In the railroad list such stocks as Northwest, New York Central, Great Northern preferred, Rock Island, Southern Pacific, the Union Pacific, the Northern Pacific, Atchison preferred and, in fact, the most prominent and active railroad stocks in the whole list showed losses all the way from 4 to 9 points.

The rallies with the final offerings down of the money rate to 6 per cent ran from 5 to 10 points. The day's transactions ran up to a total of nearly 1,650,000 shares, which is the record for a day's business. The excitement was intense all day and there can be no doubt that a large volume of transactions and a record of many quotations was lost.

PHILADELPHIA, Dec. 19.—The Philadelphia stock market did not escape the panicky conditions that ruled in the New York exchange, though the losses here were not so serious save in one stock, United Gas Improvement, which lost 9½ points, having opened at 155 and closing at 145½. Great interest was taken here in the Wall street slump, as many traders here had invested in New York stocks. The market held up fairly well until the last hour, when a semi-panic ensued. Union Traction met with a net loss of 2½, Reading first preferred 1½, Northern Pacific 4, Camden Steel 1½, Lehigh Valley 1½, Pennsylvania 1½ and Electric Company of America 1½.

Quotations were moved up at the close covering a part of the losses. The banks in this city continued their strict attitude regarding collateral and only loaned on gilt edged securities. There were no failures.

BOSTON, Dec. 19.—Confidence in financial circles in this city was apparently restored by the united efforts of bankers and brokers only to be again shaken by the failures in New York.

The local stock market quickly followed New York in the stock decline, but the slump did not bring with it any

failures among local brokers. Copper stocks underwent a further contraction.

The offer of the clearing house association to assist any solvent bank in temporary straits probably did much to ease matters here and coupled with it came the report of a satisfactory showing on the part of both the two banks in difficulty—the Globe and the Broadway—and also from the assignee of J. P. Squire and company the failed pork packers.

It is understood, however, that the affairs of all the banks which hold loans in copper stocks and other securities which have shown sharp declines, are being thoroughly investigated and if any is found in a particularly bad state it will be closed.

TROOPS FOR SOUTH AFRICA.

More to Be Sent From India—Volunteers to Go From Some of the Colonies.

LONDON, Dec. 19.—The war office has been in communication with General Sir William Lockhart, commander-in-chief in India, with a view of ascertaining what troops can be spared from his forces, and it is understood that, as a result of these inquiries, a force will almost immediately leave Bombay for Durban, including four regiments of seasoned troops with an ammunition column and a brigade of artillery, including horse and field batteries. It is hoped that this force will reinforce General Buller within a month.

The Duke of Connaught visited the war office yesterday. Since the appointment of Lord Roberts as commander in chief in South Africa, the question of rank no longer bars the duke from going to the front, as he has

GENERAL HILDYARD.

a strong desire to go, it is believed that only the queen's reluctance stands in the way. It is not unlikely that this will be overcome.

Lord Chesham, commanding officer of the Royal Buckinghamshire Yeomanry has been authorized to organize a force of 3,000 Yeomanry, who will proceed to the cape. The Yeomanry forces sent out will be drafted so as to work together with the mounted infantry and mounted militia from Canada and Australia.

It is understood that the volunteers selected will not form a separate corps, but will join their linked battalions of the regular forces in South Africa.

A correspondent of The Daily Mail, telegraphing from Frere camp, Natal, Dec. 15, and describing the Tugela river battle, said:

"The Boers, in great force, occupied a strong entrenched position, commanding the river and reaching back about 800 yards from its further side. General Hart's brigade, on the left, first attempted a crossing under a murderous Nordenfeldt and rifle fire. The Royal Dublin Fusiliers, the Royal Inniskilling Fusiliers, the King's Own Scottish Borderers and the Connaught Rangers crossed with superb and unflinching gallantry, but the position on the other side was found utterly untenable.

"The British suffered heavily from a perfect hail of artillery and shrapnel, while their own artillery was very badly mauled. They were, therefore, obliged to re-cross the river.

"On the right General Hildyard's brigade, displaying equal heroism, succeeded in entering the village of Cullen, but the Sixth battery encountered a murderous fire and was compelled to retire, leaving guns and ammunition on the veldt. This brigade also was obliged to fall back.

"Meanwhile General Barton's brigade also failed to take possession of Hlangwile, as was intended, and the entire force retired on Chieveley. General Clery was in command."

AGAINST M'GIFFERT'S TEACHINGS.

Action Was Taken by the New York Presbytery.

NEW YORK, Dec. 19.—The New York presbytery adopted resolutions disapproving of the teachings of Rev. Dr. A. C. McGiffert. The McGiffert matter was disposed of finally, as far as the New York presbytery is concerned.

MANILA, Dec. 19.—It is officially announced that General Young reports that he believes the American prisoners, including Lieutenant Gilmore, are now in the hands of the United States troops.

Colitis, Dec. 7, Eighteenth infantry, Thomas Smith, K.

Septicemia, Dec. 15, Ninth infantry, Henry Wolper, sergeant band.

General Otis cabled the war department as follows:

WASHINGTON, Dec. 19.—Admiral Watson sent a cablegram as follows:

"MANILA, Dec. 17.—Seaman Rynders of the Yorktown, captured at Baler, recaptured, with Woodbury, by cavalry at Bayombong, has reported on board the flagship; both wounded when Gilmore was taken and left behind; he reports Nygard, McDonald, Dillon, Morrisey killed. Rynders, Woodbury, Venville wounded in foot, unable to travel. Doing well Baler, June 15. Expect Woodbury tomorrow; wounded not cared for; wounds received personal care. Woodbury and Rynders walked nearly to Manila.

(Signed) "WATSON."

The above showed that 11 of the original party of 15 are still alive. The man Rynders, who brings this news, was coxswain of the Yorktown, a native of Amsterdam, but a resident of San Francisco, where he shipped. The four dead men mentioned enlisted at the following points: Nygard, a Russian, at Brooklyn; McDonald, of Carmel Valley, Cal., at Mare Island; Dolan, a native of Peru, Ind., at Mare Island, and Morrisey, a native of Columbus, Neb., also at Mare Island.

"MANILA, Dec. 19.—Hughes reports from Rombion island his arrival at Capiz, North Panay, 10th inst., driving out all Tagalos. Carpenter, with six companies, is occupying Northern Panay, two companies on Rombion island. Hughes, with battalion Nineteenth infantry, has gone to Cebu to police that island. Young, Northern Luzon, reports several minor engagements, with few casualties. Colonel Hare, with small column, still in pursuit of insurgents' column which has American prisoners, has passed through mountains and is marching on Pamplona, short distance east of Aparri, navy cooperating. Seven hundred and thirty-one Spanish prisoners arrived last evening; 500 more expected today; 1,400 leave for Spain this afternoon."

MANILA, Dec. 19.—General Lawton was to start last night from Manila with the Eleventh cavalry, under Colonel Lockett, and battalions of the Twenty-ninth and Twenty-seventh infantry, under Lieutenant Colonel Sargent, to capture San Mateo, where Geronomo has 300 insurgents. The resolutions, prepared by Rev. Dr. Henry Van Dyke and Rev. Dr. Howard Johnston, find that the teachings of the book entitled "A History of Christianity in the Apostolic Age," by Rev. A. C. McGiffert, are erroneous and liable to be misunderstood.

General Grant nearly cleared Zarba-las province. He discovered hidden in Subig bay a steamer, the Don Francis-

co., of 180 tons, fully equipped and coaled. She is supposed to be the vessel Aguinaldo was keeping ready for his escape. Captain Laysou, of the Thirty-second regiment, has routed an insurgent band in Zamboanga province, killing several officers. Major Smith, with

LIEUTENANT J. C. GILLMORE

three companies of the Seventeenth surrounded and captured another band of guerrillas which were terrorizing a large section north. The troops killed several of the band.

General Hughes captured insurgent strongholds at Leapiz and Rombion, the navy co-operating. One man was killed and one wounded.

The insurgents in the island of Panay are apparently suppressed.

The funeral will be participated in by the civic and military organizations of the city and the preparations will be elaborate.

WASHINGTON, Dec. 19.—The navy department has arranged to give a naval funeral to the remains of late Lieutenant Brumby. A company of marines, from the barracks here, with the full marine band, were ordered to report at Garfield Hospital, under charge of Commander McCrea, this morning, to escort the remains to the railway station, whence they will be conveyed to Atlanta, Ga., for interment.

Scarborough, Company B, Third infantry, and Corporal George Daephoffer, and Privates Otto R. Caine and Peter Bennett, all of Company B, Sixteenth infantry. These soldiers were convicted of rape in the Phillipines. Daephoffer was sentenced to imprisonment for life and the other three to suffer the death penalty. From Ralston's Crossing to the School House on Pennsylvania Avenue--Remains of David Dewar Taken to Toronto This Afternoon For Interment--News.

Councilman Marshall suggested that a new alarm number board be placed in the East End fire station, and it is now being made. The old board, which has been in use since the station was opened, has been found to be too small to serve its purpose, and a larger one has been found necessary. The new board will correspond with that in the Central fire station, and it is expected it will be completed within the next two weeks.

GAVE THEM SIX LOTS

Work on Buildings Will Be Commenced
Soon—Many Slips Occurred on the
Grading—Talking About Paved Streets.
Chester Mechanics Elect Officers.

Saturday the Chester rolling mill
company made a deed to the Panhandle
railway company for six lots in their
plot near the entrance to Rock Spring.
These lots were given to the company
for station purposes, and both the
freight and passenger buildings will be
built there. Early in the summer John
Shrader offered the company two lots
near the restaurant of Elmer Good for
station purposes, but nothing was ever
done with the offer. The
new station, it is said, will be
of brick, and the latest design of a station
will be built.

MANY SLIPS.

Rain Causes More Earth to Slip
on the Extension
Route.

During the night several large slips
occurred on the hill above the grading
of the Panhandle extension opposite
Market street. Not only did parts of
the hill slip but much of the bank was
also washed in the river. The steam
shovel is still in a bad place but as the
grading is almost completed it will not
hinder any work that remains to be
done.

ELECTED OFFICERS.

Chester Mechanics Held an In-
teresting Meeting Last
Evening.

Last night the annual election of officers
of the Chester Mechanics was held.
The election resulted as follows: Councillor,
Eph. Johnson; vice councillor,
William McLean; treasurer, James Finley;
financial secretary, William Bambriek;
trustee, Enoch Riley.

PAVED STREETS.

It Will Be Several Years Before They Are
a Reality.

The heavy rain of last night caused
the streets of Chester to be in a terrible
condition this morning. In some places
wagons were pulled through mud up to
the hubs. There is talk among some of
the residents of the suburban town of
having the streets paved but that
is a matter that will be considered seri-
ously in later years.

EAST LIVERPOOL, O. TUESDAY, DEC. 19.

FOR PRESIDENT--Second Term.
WM. M'KINLEY,
of Ohio.

THE condition of suburban streets after the rain is as usual.

AGUINALDO is now reported in disguise. Also in disgust.

THE new currency bill, standing for a gold dollar, passed as easily.

IF those Pennsylvania congressmen want recognition they'd better move over into Ohio.

THE proposed Women's Humane society is a good thing. There is lots of work for it to do.

STRANGE that it required a war in South Africa to remind people Ireland was still on the map!

THE Wellsville Union need no longer be alarmed over a prospective influx of undesirable oil boomers.

"BEAUTIFUL Snow" has got its quietus, but the "Night Before Christmas" is still doing business at the old stand.

ELEVEN Democrats voted with the Republican majority in passing the currency bill. Some Democrats are pretty good fellows.

Now that the navy department has deeded that Dewey gun to Three Oaks, the little Michigan village ought to sit down and be quiet.

THE increase in pottery imports for the year over 1898 need not worry anyone. It's nothing compared to the increase in the home output.

SPAIN says she will never cede or sell her African possessions under any circumstances. Reads like one of Blanco's Havana proclamations, doesn't it?

PORTO RICO is becoming thoroughly Americanized in short order. The Republicans have carried Ponce and about every other town on the island.

THIS man Andrews, of Chicago, who is predicting universal war, is the same who predicted universal calamity if Bryan wasn't elected. He can't help it.

BRIGHAM ROBERTS will scarcely be as popular in Utah as he might have been if he hadn't informed on polygamist friends who were holding minor Federal offices on false pretenses.

It would be to the universal advantage of the country if the five minute speech limit, used in the currency bill debate, was extended to all congressional business.

AS ANTICIPATED, Speaker Henderson has re-appointed R. W. Tayler chairman of house elections committee No.

AN OBJECT LESSON.

The absurdity of the Bryanite contention that the United States should do this and that "without the aid or consent of any other nation on earth" was well shown yesterday by the effect upon Wall street of the collapse in the London market resulting from British reverses in South Africa. In this age of civilization the effect of events in dis-

tant lands travels quickly and affects all more or less. No nation is immune against the misfortunes of another.

LAWBREAKERS.

The following, from the Buckeye State, will meet with the approval of all law abiding citizens: "It is evident to anyone who has cared to note, even cursorily, the proceedings of the common pleas court that there are a number of saloonkeepers in the county who almost openly defy the law, and each succeeding term are arraigned, plead guilty, pay their fines and return to re-

engage in flagrant violations of the statutes. There must be money in such methods, else they would not be so consistently followed. Perhaps some day we may have a law that will render such repeated violations impossible—a statute, for instance, that will forbid any person who has been twice convicted of offenses against the liquor laws ever again engaging in the business, either as principal or agent. If criminals after a third conviction of felonious crimes can be sentenced to imprisonment for life as habituals, it would certainly be proper that those who habitually violate the laws in restraint of the liquor traffic should be denied the right to continue in the business."

THE VOTE 190 TO 150.

Currency Bill Went Through In the House.

ELEVEN DEMOCRATS VOTED FOR IT.

Among Them Was McAleer of Pennsylvania—Silver Republican Leaders Issued an Address, Criticising the Attitude of the Old Party—Condemned the Bill.

WASHINGTON, Dec. 19.—The currency bill was passed by the house by a vote of 190 to 150. It had the united support of every Republican in the house and of 11 Democrats—Messrs. Clayton, Driggs, Fitzgerald, Levy, Ruppert, Scudder, Underhill and Wilson (N. Y.), McAleer (Pa.), Denny (Md.) and Thayer (Mass.). All the other Democrats voted against the measure or were paired against it except Mr. John Walter Simon, governor-elect from Maryland, Stallings (Ala.) and General Joseph Wheeler (Ala.). Mr. Stallings (Ala.) has not been present in the house this session owing to illness, and one of his colleagues announced that if present he would have voted in the negative. General Wheeler is serving in the Philippines.

When the speaker announced the result the Republicans cheered lustily. After the vote the speaker rather unexpectedly announced the committee selections, and the reading of the lists was followed with intense eagerness by the members whose opportunities for distinction depend so largely upon their committee assignments. The only incident in connection with the reading of the lists was Mr. Bailey's interrogatory of the speaker as to whether General Wheeler's name had been placed upon the committee on ways and means. Speaker Henderson responded in the negative. Announcement of the death of the late Representative Bland of Missouri, which occurred last summer, caused an early adjournment.

After the passage by the house of the financial bill the Silver Republican leaders in the city held a meeting and adopted an address setting forth their views as to its effect.

They accused the president and leaders of the Republican party of insincerity in declaring in the St. Louis platform for bimetallism by international agreement. They said that by this means millions of voters were held in line.

As soon as the election was over the great Republican newspapers began to discard their convenient ambiguities about sound money and honest money and to claim the result as a definite verdict in favor of gold. The president soon showed by his actions that he no longer considered the pro-election construction of the platform to be binding. His appointment as secretary of the treasury of perhaps the most conspicuous gold standard advocate among the great bankers of the country was obviously not especially designed to "promote" any kind of bimetallism. To be sure there was sent abroad the alleged international monetary commission.

But for fear that after all foreign governments might take the procedure seriously, he sent to Congress in July, 1897, at the very moment when his commission's proposals were before the English cabinet, a special message recommending the so-called Indianapolis monetary convention plan, with its program of the single gold standard, retirement of the greenbacks and extension of the powers, privileges and immunities of the national banks. Meantime his secretary of the treasury was declaring in interview after interview, most of which were carefully reproduced in Europe that bimetallism of any kind, international or otherwise, was not only impossible, but undesirable.

"The statement further said in part: 'The international agreement for the free coinage of silver having failed to be 'promoted' steps are now taken to insure that the gold standard shall be preserved.'

"The present bill 'preserves' it with a vengeance. The vast bonded debt of the country now payable in 'coin,' that is either in gold or silver, is to be made payable in gold alone. Nearly half a billion of standard silver dollars, heretofore not redeemable in anything not constituting a burden on either the gold reserve or the credit of the government, but forming a large percentage of our basic money, redeemable in gold, thus increasing tremendously the strain on that metal and becoming an 'endless chain' with which to pull gold from the treasury and affording an excuse for the final destruction of the silver dollars as money, and their forced sale as bullion, after the manner of the German procedure in 1872."

The greenbacks are to be virtually destroyed by being changed into gold certificates, to be locked up in the treasury and paid out only for gold. The tax on the circulation of the national banks is to be reduced and the amount of the

bank currency they may issue on government bonds deposited is to be increased from 90 per cent to par of the bonds, thus making their business enormously more profitable, opening the way to an immediate possible inflation of banknotes, not legal tender, excellent for getting into debt on but unavailable for getting out of debt with, to the extent of \$200,000,000; and placing the regulation of the volume of money, and hence the determination of prices and the burden of debts absolutely in the power of the banks and the creditor class.

This statement is signed by Charles A. Towne, chairman committee; Henry M. Teller, R. F. Pettigrew, Frank J. Cannon, Edgar Wilson, Charles S. Hartman, John Shafroth and Fred T. DuBois, chairman executive committee.

BOLD PIECE OF BOODLING.

Alleged Michigan Paid For the Same Clothing For Militia Twice.

LANSING, Mich., Dec. 19.—According to allegations made here and based on results of grand jury investigations, the state military board is alleged to have sold last July to the "Illinois Supply Company," of Chicago, for \$10,500 absolutely new clothing, goods and equipments estimated to have inventoried at \$53,000. It is further alleged that what were alleged to be the same goods were soon afterward purchased by the board from the Henderson and Ames Manufacturing Company of Kalamazoo.

It is alleged to be a fact that the "Illinois Supply company" was a fake concern, created by persons interested in the Kalamazoo company for purposes only of the alleged sale. It is stated that at the same meeting at which the board decided to sell these goods a resolution was adopted authorizing the quartermaster general to purchase an equipment of precisely the same class of goods and that this was done at a cost of over \$60,000.

A draft for \$10,000 was soon received and four carloads of goods were shipped from the state armory to Chicago. Addison C. Cobb, an employe of the Chicago Beach hotel, received them there and, without breaking the seals, reshipped them to the Henderson Ames company, at Kalamazoo.

EVENTS IN BRIEF.

The suspension of the firm of Henry Allen & Co., bankers and brokers of New York, was announced on the stock exchange.

The San Francisco Call said that Howard Tuttle, recently reported to have committed suicide by jumping into the bay on account of unrequited love, is alive.

The Produce Exchange Trust company of New York closed its doors. A notice upon the door said that the company had suspended payment pending an examination of its books.

Mrs. John A. Logan, Jr., accompanied by her three children and mother arrived from Youngstown, O., at San Diego, Cal. They will await the arrival of the body of Major John A. Logan, who was killed in the Philippines.

An amended scale of wages has been decided upon by the cloth weavers of Philadelphia and will be presented to the manufacturers during the current week. The scale calls for a general increase of 15 per cent.

David Clark, who lived near Clarksburg, Penn township, Allegheny county, Pa., died of injuries received on Dec. 11. He was employed in the mines of the New York and Cleveland Gas Coal company and he was hurt by the pit cars. He was unmarried.

Three persons were burned and a fourth injured by jumping from a second story window of tenement house fire in Jefferson avenue, Hoboken. Dennis Sullivan, aged 43, was burned about the hands and face and his recovery is doubtful. Three children sustained minor injuries.

The fate of the schooners Howard H. Hanscom and James B. Pace, which sailed from Philadelphia November, 1898, for New England ports and were never afterward heard from, was learned. Divers located both vessels sunk on the southern coast of Massachusetts, apparently in collision. In both skeletons of men were found lashed to the rigging or to the rail.

The Michigan legislature met in special session in response to a call of Governor Pingree. The governor's object was to secure passage of a joint resolution providing for submission to the people at the general election next November of an amendment to the state constitution placing railways upon the same basis for taxation as all other property. At present the railways pay specific taxes upon gross earnings.
